SUPPLY CHAIN

We have built unique & strong sourcing and supply chain management techniques that gave quality services to our business partners. We are well known for our expertise and professionalism in handling the entire process from concept to fulfillment.

PRODUCT DESIGN

We set off our client's design department and create styling according to their specifications on fabrics, garments & accessories. We research on market demands and future trends. We also keep abreast of the developments in the fashion industry and initiate trendy products using the latest technology.

YARN, FABRIC & ACCESSORIES LIBRARY

We are in the process of developing a vast and exclusive yarn, fabric & accessories library that will help our clients updated of the current trends and advise them regarding the country of production that will allow them to enjoy preferential tariffs and duties.

PRODUCT DEVELOPMENT

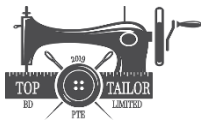

We plan and organize the entire production process systematically together with our experienced staffs of global spirit, and record every single step of the working process carefully. We also observe daily & weekly output and control right delivery.

QUALITY ASSURANCE

We ensure product quality as per clients' requirements and specifications by conducting daily check and inspection in production lines. Our quality controllers are specialized in raw material to finished goods inspection.

RAW MATERIAL SOURCING

Our experienced merchandising and procurement team source and evaluate the yarn, fabric and accessories manufacturers on the field. We procure best quality products and competitive pricing for our customers.

LOGISTIC ARRANGEMENT & EXPORT DOCUMENTATION

We are not only responsible for production of required quality products, we also co-ordinate with all the logistic and shipping stakeholders, and ensure that all export documentation is made accordingly so that customers can smoothly release and distribute the goods timely.

FACTORY EVALUATION

More than 70 production units in Bangladesh are well associated with us. These factories are specialized in all categories of apparels and garment products. Our evaluation team and quality controllers always ensure that all the factories associated and to associate must be well-equipped and qualified with all compliance and ethical terms, conditions and requirements.

ORDER NEGOTIATION

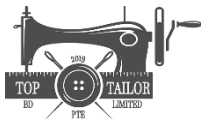

We always look after our client's interest; and offer them value products. We sort out factories very carefully so that those can stand for meeting our client's expectations accordingly.

SUPERVISION OF WORKING PROGRESS

We ensure product quality and timely delivery by monitoring an order from its inception. We follow up all orders from fabric production and dyeing to delivery to the production lines.
